

# Education Abroad in England and Wales

Kailey Freireich

STEP Faculty Mentor: Tom Mitchell

Major: Food, Agricultural, and Biological Engineering

## Program

- Engineering the Castles and Cathedrals of England and Wales (Ohio State faculty-led, 22 students)
- One week on campus at OSU, two weeks travelling
- Each student was assigned a castle/cathedral to research and then present on site

## Motivation for Choosing this Project

- Desire to travel abroad
- To learn the culture and history of another country
- To practice research and presentation skills
- To meet more Ohio State students

## How My Project Was Transformational

- Learned new perspectives
- Gained international travel experience/desire to travel more
- Compared the histories and cultures of the U.K. and the U.S
- Improved presentation skills
- Added to my network of Ohio State students and faculty
